

**IN THE SPECIFICATION:**

**Please replace the paragraph beginning at page 7, line 6, with the following rewritten paragraph:**

The ninth aspect of the present invention is the transparent electroconductive layered structure according to the eighth aspect, wherein the fine electroconductive oxide particles ~~are of~~ comprise at least one species of material selected from the group consisting of indium oxide, tin oxide and zinc oxide.

**Please replace the paragraph beginning at page 9, line 15, with the following rewritten paragraph:**

The 19<sup>th</sup> aspect of the present invention is the method according to the 18<sup>th</sup> aspect for producing the transparent electroconductive layered structure, wherein the fine electroconductive oxide particles ~~are of~~ comprise at least one species of material selected from the group consisting of indium oxide, tin oxide and zinc oxide.
